REASONS TO SUBSCRIBE TO PROQUEST CENTRAL (NEW):

#1: Authoritative & in-demand full-text content

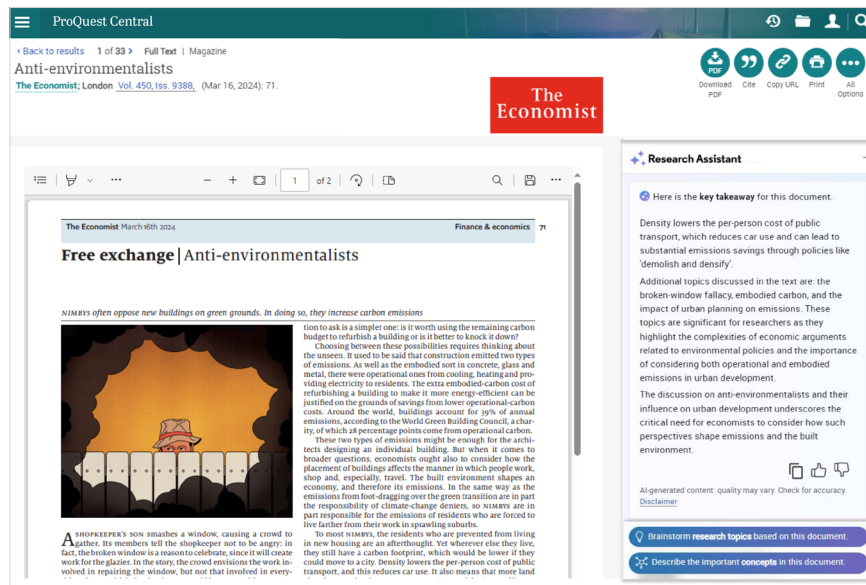

ProQuest Central delivers:

- Important **scholarly publishers** like Springer, Nature, Emerald, Cambridge University Press, Nature Sustainability, and CABI Cases series of journals with full text of **key journals** including the Lancet, Nature, MIT Sloan Management Review, Journal of Marriage and Family, and Journal of Business Ethics.
- **Local, national, and international news coverage**, including the *New York Times*, *Wall Street Journal*, *Washington Post*, *Chicago Tribune*, *Financial Times*, *Le Monde*, and *The Guardian*. CBS 60 MINUTES segments are included, as are daily videos from the *New York Times* and *Washington Post*.
- **Global Market Information & Current Affairs Magazines** help researchers explore analyses of industries, countries, economies, and markets from providers like Fitch Solutions, Economist Intelligence Unit (EIU), Plunkett Research, and Barnes reports. Full-text magazines like *The Economist*, *Billboard*, *Variety*, and *The Spectator* provide current content expected by users.
- **Grey Literature** can help uncover the latest in academic research through access to reports, working papers, conference papers and proceedings, trade publications, dissertations and theses and other hard-to-find content types.

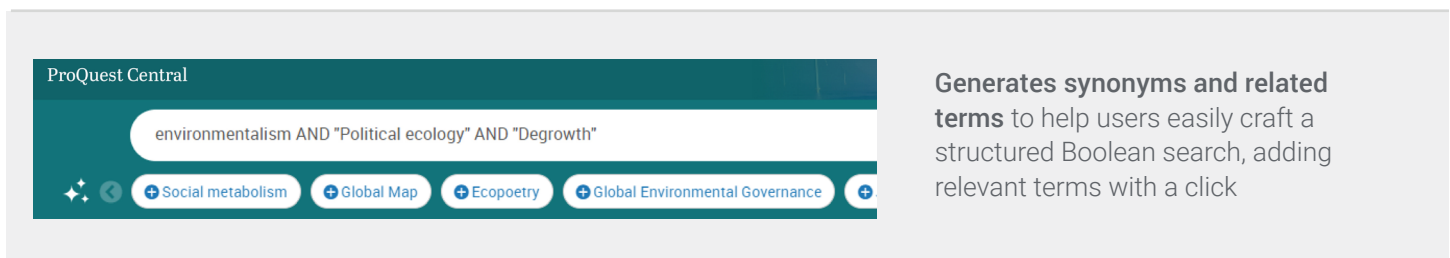

#2: ProQuest Research Assistant

Built in collaboration with librarians, students, and faculty, ProQuest Research Assistant harnesses academic AI to solve real problems and streamline workflows.

Providing rich document-level insights and helping users create better search queries:

- **Key takeaways** of the document to quickly determine relevance
- **Explanations** of important concepts in the document
- **Guidance** on next steps, including suggestions for future research topics
- **Helps** users turn generic searches into more precise queries

Generates synonyms and related terms to help users easily craft a structured Boolean search, adding relevant terms with a click

Insights are customised to the document being viewed, including a **key takeaway** to quickly determine relevance

Users are guided to useful next steps such as exploring the **important concepts** discussed in the document

Choose from **suggested research topics** based on the document

Here is the **key takeaway** for this document.

Density lowers the per-person cost of public transport, which reduces car use and can lead to substantial emissions savings through policies like 'demolish and densify'. Additional topics discussed in the text are: the broken-window fallacy, embodied carbon, and the impact of urban planning on emissions. These topics are significant for researchers as they highlight the complexities of economic arguments related to environmental policies and the importance of considering both operational and embodied emissions in urban

Here are important **concepts** discussed in this document and why they are important.

1. **Green Alliance**: A pressure group in Britain advocating for environmental policies, particularly in relation to urban density and public transport. Its research supports the idea that increasing density can significantly reduce emissions over time, highlighting its influence on environmental policy discussions.
2. **Frédéric Bastiat**: A 19th-century economist known for his parable of the broken window, which critiques the fallacy of focusing only on visible economic activity. His ideas are referenced to illustrate the importance of

Here are **research topics** based on this document.

1. Impact of urban density on emissions: Understanding how urban density affects transportation emissions is crucial for developing sustainable city planning strategies.
2. Embodied carbon in construction: Investigating the concept of embodied carbon can lead to more informed decisions in building practices and materials selection.
3. Nimbyism and its environmental impact: Examining the effects of NIMBY attitudes on housing and urban development can inform

#3: Key discipline and news content

Eight **ProQuest One discipline solutions** can be cross-searched within ProQuest Central (New) providing additional **multiformat content** catering to specific discipline needs.

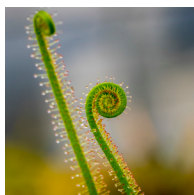

PROQUEST ONE HEALTH & NURSING

delivers content for biomedical, healthcare, and nursing research with in-depth coverage of healthcare, public health, health professions, pharmacology, and more. Users will discover peer-reviewed journals, clinical skills videos, reference materials, and trade publications, among others.

PROQUEST ONE PSYCHOLOGY is designed to meet the unique needs of psychology and counseling curricula across research, teaching, and learning. This expertly curated resource reimagines the research experience for the discipline, supporting multiple learning styles with authoritative multiformat content covering psychological conditions, therapy, research concepts, tests and more.

PROQUEST ONE APPLIED & LIFE SCIENCES supports biological sciences, engineering, materials science, advanced technology, and aerospace with full-text resources and specialized A&I tools facilitating literature reviews with access to content from Springer, Wolters Kluwer, Elsevier, and Nature Publishing Group. Combined with grey literature, users gain insights into cutting-edge non-peer-reviewed research making the depth and breadth of content invaluable.

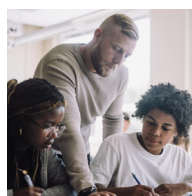

PROQUEST ONE SUSTAINABILITY

meets the growing demand for sustainability curricula by delivering access to scholarly journals, full-text case studies, dissertations, reports, trade journals, ebooks and more. Its transdisciplinary research experience

is structured around sustainability's environmental, social and economic pillars, its key competencies and the U.N. Sustainable Development Goals.

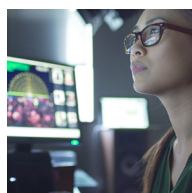

PROQUEST ONE BUSINESS supports the business curriculum with scholarly journals, ebooks, market research, company reports, dissertations, and global news from sources like *The Wall Street Journal* and *The Economist*. Its multimedia resources, such as streaming videos and expert-curated datasets, and industry insights from sources like J.P. Morgan and Fitch Solutions, aid tasks like financial analysis, market trend research, and industry comparisons.

PROQUEST ONE SOCIAL SCIENCES offers titles spanning anthropology, criminology, library science, linguistics, political science, social work, and sociology. Ideal for interdisciplinary studies the resource also includes A&I databases such as Sociological Abstracts, which are highly valued for their breadth and depth of discipline-specific coverage.

PROQUEST ONE EDUCATION intuitively organizes the content needed for studying and researching education in an interface aligned with common areas of research and study in the discipline. Combined with specialized indexing based on the ERIC thesaurus, it allows users to find the information needed quickly and precisely.

PROQUEST ONE RELIGION & PHILOSOPHY spans theology, history, and philosophy. This resource explores the enduring influence of religion and philosophy on human history, society, and culture. It includes multiformat content like archival magazines covering a range of religions. Additional primary sources include electronic versions of *Acta Sanctorum*, *Patrologia Latina*, and the *Weimar Edition of Luthers Werke*.

GLOBAL NEWSSTREAM COLLECTION

is a premier source for contemporary news from around the world, combining ProQuest's U.S., Canadian, and International Newsstream collections.

Researchers gain full-text access to nearly 2,000 sources, including newspapers, newswires, broadcast transcripts, and websites, with an extensive archive reaching back to the 1980s, providing valuable historical context for their research.

#4: A&I content

Bibliographic indexes to support advanced research with reliable discovery of relevant literature across various disciplines.

- **Wide range of disciplines:** From science and medicine to social sciences, A&I databases such as AGRICOLA, MEDLINE, ERIC, and Sociological Abstracts are available.
- **Access to the latest research:** A&I provides discovery of non-embargoed content, ensuring visibility into current research without the typical delays imposed on many full-text titles.
- **Precision and integration:** Over 200 indexed fields offer precise searches and seamless integration with link resolvers providing easy access to full-text documents.
- **Comprehensive literature reviews and structured access:** The breadth and depth of the A&I facilitate thorough literature reviews, ensuring users efficiently cover all relevant studies. Our editorial input, controlled vocabulary, and indexing, structure the literature, aiding efficient discovery of relevant papers.
- **Grey literature discovery (including full text):** ProQuest indexes reports, working papers, conference papers and proceedings, trade publications, dissertations and theses and other hard-to-find content types, helpful in uncovering research that is so new that it has not yet passed the peer review process.

Additional resources included in ProQuest Central:

More full-text content:

RESEARCH LIBRARY: Provides a multidisciplinary mix of scholarly, professional, and consumer periodicals that combine currency with a deep backfile, offering historical context.

SCIENCE DATABASE: Full-text articles from 1,400+ sources are ideal for institutions that need a broad, interdisciplinary science and engineering resource.

ARTS & HUMANITIES DATABASE: Includes scholarly journals on Art, Architecture, History, Philosophy, Music, and more as well as popular publications like *Artforum International* and *Vogue*.

MILITARY DATABASE: Scholarly journals, technical reports, trade and industry journals, and government publications support research across government and military branches.

CAREER & TECHNICAL EDUCATION DATABASE: Delivers vocational topics including computer science, law enforcement, healthcare, building trades, and more for college prep and academic research.

CANADIAN BUSINESS & CURRENT AFFAIRS DATABASE: Includes CBCA Business, Education, and Reference & Current Events databases providing broad coverage from a Canadian perspective.

TELECOMMUNICATIONS DATABASE: Provides 200+ titles with records dating back to the early 1990's for anyone researching the industry or its technology.

REGIONAL/INTERDISCIPLINARY: Delivers locally sourced scholarly publishing from regions including Australia & New Zealand, Europe, Asia, India, Latin America, Africa, and more.

A&I databases and content:

HEALTH & NURSING

- British Nursing Index
- ComDisDome
- MEDLINE
- Sports Medicine & Education Index

APPLIED & LIFE SCIENCES

- Advanced Technologies & Aerospace Index
- Biological Science Index
- Engineering Index
- Materials Science Index

SUSTAINABILITY

- AGRICOLA
- ASFA: Aquatic Sciences and Fisheries Abstracts
- Environmental Science Index
- Meteorological & Geostrophysical Abstracts

SOCIAL SCIENCES

- Applied Social Sciences Index & Abstracts (ASSIA)
- ERIC
- International Bibliography of the Social Sciences (IBSS)
- Library & Information Science Abstracts (LISA)
- Linguistics & Language Behavior Abstracts (LLBA)
- National Criminal Justice Reference Service (NCJRS) Abstracts Database
- PAIS Index
- Policy File Index
- Sociological Abstracts
- Worldwide Political Science Abstracts

PSYCHOLOGY

- PTSDpubs

Classroom Discussion

On this page: Peer Reviewed | Results Timeline | Books | News | Dissertations | Top Publications

Classroom discussion, also known as substantive conversation or instructional conversation, is a teaching method that focuses on the active exchange of ideas. Classroom discussion gives students a role in constructing knowledge, allowing them to process, rather than simply receive, information. Although classroom discussions are facilitated by the teacher, they are open-ended, encouraging the expression of multiple points of view and opportunities for self-reflection. They can be used at any grade level and in any content area.

The use of discussion as an educational tool has its origins in the method of dialogue and questioning employed by the Ancient Greek philosopher Socrates. In modern education, classroom...
